

DÉNIA CITY TOURISM ACCESSIBILITY GUIDE

‘Accessibility is essential for 10% of the world's population, necessary for 40% and convenient for 100%’ (Diego González, President of the Ibero-American Accessible Tourism Network and the Spanish Accessible Tourism Network)

Therefore, accessible tourism must have as its main objective the achievement of equal conditions for all people in the use and enjoyment of tourist services and environments. At Dénia Town Council, we are aware that there is always more work to be done to improve accessibility in a municipality. That is why the municipality is evolving, little by little, without pause, in favour of continuous improvement.
